RE: St. Mary Magdalene Catholic Church Campus As-Built / Topographic Survey

Dear Daniel,

On behalf of St. Mary Magdalene Catholic Church parish and our Long Range Planning Committee, I wish to express my thanks and gratitude to you and your company for performing a Campus As-Built / Topographic Survey in support of our Master Planning Project. I appreciate your responding to Father Tuttle's lenten message to "Give Back to the Community" and for thinking of our parish. Your professional efforts are greatly appreciated and have greatly assisted our Master Plan efforts and have contributed greatly to our Phase 1 Planning efforts. You and your company are in our Parish Prayers.

As a small token of my appreciation, I will offer a Mass for you. I will also offer a Mass for your parents, Frank and Mary Stiles and pray for their good health. I have also enclosed a gift card for you and your family to use.

We look forward to a continuing a St. Mary Magdalene Catholic Church relationship with EAS Professionals as the parish enters the next steps of implementing the Master Plan that has been developed.

In Christ,

Fr. Theo Trujillo, Pastor
